OPEN LETTER

Mr. Pham Hung Phuong
Director

Dear our esteemed Partners – Clients,

During more than 15 years of foundation and development, PTSC Thanh Hoa Technical Services Company (PTSC Thanh Hoa) has made important breakthroughs to become a prestigious contractor in supplying technical services with high quality for oil & gas industry and energy. Since official establishment in 2009, PTSC Thanh Hoa has constantly enhanced our ability, invested in technology and human resources in order to meet the high demand of the market.

PTSC Thanh Hoa is supplying chain of services including: Marine Vessels – Port Operation & Logistics - Mechanical & Construction – Operation & Maintenance. We are committed to provide the best services, bring the practical value to our Partners – Clients.

With the sustainable foundation, PTSC Thanh Hoa intends to become a strategic partner in supplying services for oil & gas industry and energy in Vietnam and worldwide, especially in offshore renewable energy sector.

We are desiring to cooperate, accompany with Partners – Clients to achieve the breakthrough successes. PTSC Thanh Hoa believe that we are going to open up many opportunities for growth, toward new achievements by our close collaboration.

Best regards,

Chapter

02

ABOUT US

ESTABLISHMENT & DEVELOPMENT

PTSC Thanh Hoa was equitized to become a Joint Stock Company with a charter capital of VND 400 billion.

Operation & Maintenance Service was established, completing the core services of PTSC Thanh Hoa for oil & gas industries, energy.

2009

2014

2016

2023

PTSC Thanh Hoa was established with charter capital of VND 100 billion, initial operation in Sea Port exploitation.

Mechanical & Construction Service was formed with the mission of seizing opportunities and promoting the strengths of PetroVietnam Technical Services Corporation (PTSC) in the Central region of Vietnam.

PTSC Thanh Hoa was assigned by PTSC to operate a fleet of vessels and tugboats serving Nghi Son Refinery and Petrochemical Plant (NSRP), marking the establishment of Marine Vessel Services.

PTSC Thanh Hoa has become a contractor for manufacturing and fabricating oversize and overweight modules in the field of offshore renewable energy.

CORE VALUES

Mission: A Passion to Serve

PTSC Thanh Hoa aspires to serve through high-quality, practical, and environmentally friendly technical products and services, driven by a progressive and innovative mindset, with a humble and inspiring attitude in action.

Vision: Serving Today – Leading Tomorrow

To become a leading service provider in Vietnam in the fields of industrial and energy, pioneering innovation, creativity, and global integration.

- Domestic and international freight forwarding and transportation, domestic and international multimodal transportation;
- Customs declaration and clearance services for import and export cargoes;
- Consulting support on procedures for applying for import and export licenses and specialized inspections.

Typical Projects

01

NS2PC LOGISTICS

Duration: 2019 - 2020
Client: Chosuk Construction Co., Ltd
SOW: Pipe handling, transportation, storage.
 Total volume: 2,000 FT

02

CWC PIPE HANDLING

Duration: 2014 - 2015
Client: Hyundai Heavy Industry
SOW: CWC Pipe load out/ lashing of 5.740 pipes (CWC -24T - 12m per pipe)

03

NSRP ONSHORE LOGISTICS (CONSTRUCTION PHASE)

Duration: 2014 - 2018
Client: Tatsumi Vietnam & Nippon Express
SOW: Onshore logistics such as: custom clearance, cargo handling, cargo transportation, import/export permit for NSRP.

04

NSRP LOGISTICS (OPERATION PHASE)

Duration: 2016 - At present
Client: NSRP
SOW: Clearance service for import and export, cargo handling, land transportation for NSRP project.

Typical Projects

05

NSRP'S PORT MANAGEMENT

Duration: 2017 - At present
Client: NSRP
SOW: Management of Port Operation for NSRP.

06

TRANSPORTATION OF SUCTION BUCKETS FOR OFFSHORE WIND FARM PROJECT

Duration: 2024
Client: PTSC / Orsted
SOW: Transportation of 30 suction buckets from PTSC Thanh Hoa Port to Vung Tau Port.

Mechanical & Construction Services

● Mechanical Fabrication

TSC Thanh Hoa is supplying services including engineering, procurement, fabrication of oversized-overweight modules with numerous quantities.

The 22- hectare Mechanical Factory nearby seaport has a capacity of up to 5.000 tons of equivalent structures per month.

The system of equipment serving fabricating and manufacturing is invested synchronously, ensuring the quality and progress of the project;

- Cutting and shaping equipment systems (plasma cutting machines, CNC machines, 3D drilling machines, bending machines)
- Welding systems (all types of automatic welding machines, electric arc welding, column welding machines)
- Lifting equipment systems (cranes, gantry cranes, crawler cranes, tire cranes, container cranes).

● Construction & Installation

PTSC Thanh Hoa has extensive experience and resources in implementing EPC projects for onshore construction in the sector of Oil & Gas, Industry, Chemicals and Energy.

We are committed to:

- **Safety:** Implementation of projects ensure compliance with domestic and international standards on safety and environmental protection.
- **Quality:** Human resources have been well-trained with extensive experience for implementation of EPC projects, ensuring the quality.
- **Progress:** Complete the project on schedule with proactivity, flexibility and creativity during implementation phase.
- **Efficiency:** Implementation of projects ensure competitiveness and efficiency for customers and investors.

Typical Projects

01 NSRP PROJECT

Duration: 2014 - 2016
Client: JGCS Consortium
SOW: Construction, Fabrication & Installation of Underground Piping System; welding construction of steel pile for wharf (package B2); package SMP 8; package SMP9.

02 EPC FUEL DEPOT AT DINH VU INDUSTRIAL PARK, HAI PHONG

Duration: 2018
Client: Top Solvent Vietnam
SOW: EPC of 04 chemical tanks, fabrication and installation of pipes, office buildings, warehouses, office building, security house.

03 EPC VOPAK GALAXY EXPANSION PHASE III PROJECT

Duration: 2019 - 2020
Client: Tập đoàn Vopak Hà Lan
SOW: The EPC of 11 chemical/solvent tanks with a total capacity of 20,000 m3, total volume 720 tons

04 LSP COMPLEX PROJECT

Duration: 2020 - 2023
Client: TPSK Consortium
SOW: EPC of 08 tanks.

Typical Projects

05

LPG TANK THI VAI PROJECT

Duration: 2023 - 2024
Client: PV GAS/PTSC
SOW: EPC 02 PCCC tanks, 01 DO tank.

06

FABRICATION OF SUCTION BUCKETS FOR OFFSHORE WIND FARM PROJECT

Duration: 2023 - 2024
Client: PTSC / Orsted
SOW: Fabrication of 30 Suction Buckets.

Operations & Maintenance (O&M) Services

PTSC Thanh Hoa is providing operation and maintenance – overhaul onshore and offshore equipment for Refinery & Petrochemical, Thermal Power Plant.

Main Services:

- Operation Support
- Conversion
- Daily maintenance
- Periodic maintenance
- Emergency maintenance
- Major maintenance (Turnaround)

Works and projects are always implemented rapidly, promptly, ensuring efficiency, bringing practical benefits to customers.

PTSC Thanh Hoa is a strategic partner in Vietnam of Mitsui E&S and Kobe Steel in perform

Typical Projects

01 NSRP'S FIRST TURNAROUND NSRP – TA23

Duration: 2022 - 2023
Client: NSRP
SOW: General Main Contractor of Consortium for maintenance and overhaul in area 4 of NSRP.

02 CONVERSION OF AR TANK

Duration: 2024
Client: NSRP
SOW: Converting crude oil tank into atmosphere residue (AR) tank at NSRP.

03 EPC STG3 PROJECT

Duration: 2024
Client: NSRP
SOW: Replacement of Steam Turbine Generator (STG3) at NSRP.

04 DAILY MAINTENANCE SERVICE FOR NSRP – DMS

Duration: 2024 - At present
Client: TPSK Consortium
SOW: Maintenance of rotating and static mechanical equipment at NSRP.

Typical Projects

05 MAINTENANCE OF SPM

Duration: 2017 - At present
Client: NSRP
SOW: Inspection, survey, maintenance and overhaul above-water and underwater parts of NSRP's Single Point Mooring and other offshore projects.

06 DAILY MAINTENANCE SERVICE FOR THAI BINH 2 THERMAL POWER PLANT

Duration: 2024 - At present
Client: NM Nhiệt điện Thái Bình 2
SOW: Regular maintenance and emergency overhaul of 02 steam turbine generators (Capacity of 1,200 MW) at Thai Binh 2 Thermal Power Plant.
